

Question of the day

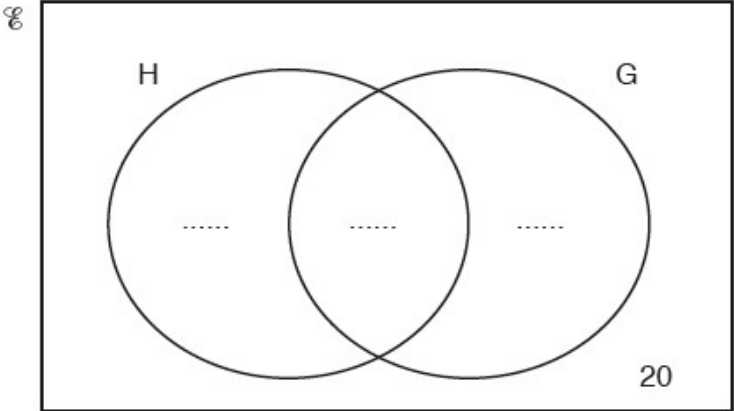

Day 8

In a group of 100 students

- 59 study History (H)
- 62 study Geography (G)
- 20 do not study either subject.

(a) Complete the Venn diagram.

[3]

(b) One of the 100 students is selected at random.

Find the probability that this student studies exactly one of the two subjects.

(b) [2]
